

Healing Through Horses Equine Assisted Mental Health and Muse Horses™ Equine Assisted Learning

Invites You to A Workshop for Women Entitled, "LIVING WITH INTENTION"

Do you ever...

- * Know there is more to life, but not sure what that would look like or how to get it?
- * Think about all the things you intended to get done, this week, this month, this year and it is still not done?
- * Find yourself feeling stuck and not sure how to get unstuck?
- * Feel disappointed and frustrated with yourself and your life, but keep doing the same thing?
- * Want deeper, more meaningful and real relationships?
- * Wake up wondering what happened to your life?

If you answered 'YES' to any of these questions, then... 'LIVING WITH INTENTION' will assist you in removing the blocks that prevent you from having the life you want. Join us for an interactive, exciting, experiential seminar/workshop where you will be educated, entertained, challenged, and left with insights that will motivate and help to focus you on what is truly important. You will personally create a plan on how to live life with intention.

Your Two Legged Facilitators

Judy Schneider, LISW has been a clinical social worker for over 20 years. She combines traditional modalities of therapy with Equine Assisted Mental Health. She is the founder of Healing Through Horses an Equine Assisted Mental Health Program and is honored to offer you a day of rejuvenation and discovery through the way of the horse.

Laurie Shannon, M.Ed. is EAGALA certified and has been in the mental health profession for 27 years. She believes that horses can teach humans to become better people and believes that personal growth is enhanced by our sacred connection with nature and with animals. She is the Co-founder and Director of Muse Horses™ Equine Assisted Learning in Phoenix, AZ.
