Healing Through Horses would like to thank **Carletta Humphrey** for creating our new website. Carletta would like you to know: "I was an early casualty of the current "economic crisis" and laid off from a high tech company after 12 years. After the initial shock I found that I like the freedom of working for myself. My most recent experience in the corporate world was in marketing and advertising doing WebPages and push emails such as newsletters, promotions, product releases, etc. I do enjoy the creative aspects of putting someone's business idea into a site that conveys their message. Although I was working in the corporate world and doing "high tech" things I am a country girl at heart. I have a longstanding love affair with nature and animals, especially horses. I was born in the year of the horse and I am convinced that I have equine DNA."
